

Tilburg University

Tilburg University contributes to solving social issues. They achieve this mainly by developing and transferring knowledge and bringing together people from various disciplines and organizations. Therefore they have invited companies, organizations, government, and citizens to work together with them to develop new insights and solutions which create value for society. They create this innovation by conducting research, by learning, and by understanding.

Education

Quality of education, social orientation, and a strong campus feeling form the basis of its education. Its green campus offers an attractive basis for fostering an international community where students and teachers can inspire and challenge each other and obtain knowledge.

Research

Its research links up with existing, complex societal issue. They require an integral approach, involving various academic disciplines. Its disciplines of economics, law, catholic theology, social and behavioral sciences, and humanities contribute each in their own way to Understanding Society.

Organization

Tilburg University's highly qualified staff produce high-level quality. They stimulate connection and cross-disciplinary cooperation between people and teams and promote quality of leadership within an effective organization.

SPECIALITIES

Tilburg School of Economics and Business 5th in top Business Schools THE ranking

The Times Higher Education ranks the Tilburg School of Economics & Business 5th among the top of universities and business schools in Europe and 21st worldwide.

TiSEM scores well in research (citations and reputation) and also in acquiring funding from the private sector (attracting industry funding), and in terms of its international orientation. The THE ranking is very influential internationally and evaluates the reputation of universities and business schools in the fields of education and research.

This year its score on citations was 81 (70 last year, on a scale of 0 to 100); on funds from the private sector (industry income) it was 99.5 %, same as last year, and on international orientation it was 77, compared to 74 last year.
