57	International Economics I	Business Administration	3	48	12
58	Investment	Finance	3	48	16
59	Financial institutions and financial markets	Finance	2	32	16

Notes:

1. The above listing of modules is updated in August 2016 and its availability is subject to change. Thus, if a course has a high enrollment that reaches the cap, or becomes no longer available due to on-going changes which might be made to the teaching schedule (as will be announced prior to each spring semester), it may not be possible to accommodate you, or you are encouraged to remain a bit flexible in your schedule planning.

2. A wider range of in-session Chinese language modules will also be available for those wishing to map a key idea in the Chinese Language. Assuming no prior knowledge of Chinese, layers of learning goals designated and set in these modules are tailored to a beginner's progressive needs. More details on selection of Chinese language modules will follow upon your arrivals, specifically during an orientation session organized by International Cultural Exchange School (ICES) which will place you into the level of study as appropriate, as well as provide a valuable insight into the skills and expectations required to secure your success in these learning modules.

3. To start modules selection, please go to SUFE Academic Toolkit and follow the instructions given in the welcome email.

4. Any queries on the modules of study can be directed to: incoming@sufe.edu.cn.
